DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Harris (EP 408,006 B1).

Harris discloses a track and trolley apparatus for movable wall panels 18 comprised of a plurality of track sections 42, 44, a set of diverter blades 48 act as a switch assembly at a junction in the track, as shown in figure 9. The blade 48 is laterally offset from the center of the track and also offset from the main track, as shown in figure 9. The system is further comprised of a plurality of trolleys attached to wall panels 18 by means of pendant bolt 34. The trolley is further comprised of a chassis 22 for accepting axles having wheels 24 mounted thereon. The trolley has a guide plate 47 positioned under the chassis 22 and connected by means of a downwardly extending base portion 36. The guide plate 47 as well as the top of the chassis 22 have extending pins 46 to contact the diverter blades of the tracks so as to move the trolley from one track to another. The pins 46 are laterally offset from the center of the trolley so as to mate with the diverter blades as shown in figures 10 and 11. One part of the extending pins 46 that mate with the diverter blades 48 are mounted to the side of the lower guide plate 47.
